INTERNATIONAL PRELIMINARY EXAMINATION REPORTUPO

PCT

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference	FOR FURTHER ACTION	See Notification of Transmittal of International Preliminary Examination Report (Form PCT/IPEA/416)					
325.0198PCT	International filing date (day/mor						
International application No.		10 December 2002 (12 12 2002)					
PCT/US03/39776 International Patent Classification (IPC)	or national classification and IPC						
IPC(7): B01D 53/14 and US Cl.: 095/16	50,163,235,236; 096/234						
Applicant							
FLUOR CORPORATION							
1. This international prelimiting Examining Authority and	nary examination report has been is transmitted to the applicant a	een prepared by this International Preliminary according to Article 36.					
2. This REPORT consists of	f a total of $\frac{2}{3}$ sheets, including	g this cover sheet.					
		e., sheets of the description, claims and/or drawings is report and/or sheets containing rectifications made 607 of the Administrative Instructions under the PCT).					
	These annexes consist of a total of sheets.						
3. This report contains indic	cations relating to the following	g items:					
I Basis of the re	port						
П Priority							
III Non-establishr	nent of report with regard to no	novelty, inventive step and industrial applicability					
IV Lack of unity							
,		regard to novelty, inventive step or industrial					
applicability;	citations and explanations suppo	porting such statement					
VI Certain docum							
	The state of the s						
	vations on the international app						
\							
Date of submission of the demand	Da	ate of completion of this report					
15 July 2004 (15.07.2004)	11	August 2004 (11.08.2004)					
Name and mailing address of the IPE	A/US Au	uthorized officer					
Mail Stop PCT, Attn: IPEA/ US Commissioner for Patents	Di	Jean Proctor Duane S. Smith Paraleyal Spontages					
P.O. Box 1450 Alexandria, Virginia 22313-1450	Te	elephone No. 571-272-0987					
Facsimile No. (703) 305-3230							

Form PCT/IPEA/409 (cover sheet)(July 1998)

International application No.	
PCT/US03/39776	

		s of the report
1.	With	regard to the elements of the international application:*
	\boxtimes	the international application as originally filed.
	\boxtimes	the description:
		pages 1-17 as originally filed
		pages NONE, filed with the demand pages NONE, filed with the letter of
		
	\boxtimes	the claims:
		pages 18 and 19 , as originally filed pages NONE , as amended (together with any statement) under Article 19
		pages NONE, as afficied (digetter with any statement) sate and pages NONE, filed with the demand
		pages NONE , filed with the letter of
	∇	
		the drawings:
		pages 1-2 , as originally filed pages NONE , filed with the demand
		pages NONE , filed with the letter of
		the sequence listing part of the description:
1		pages NONE, as originally filed
		nages NONE filed with the demand
		pages NONE filed with the letter of
2	1	th regard to the language, all the elements marked above were available or furnished to this Authority in the guage in which the international application was filed, unless otherwise indicated under this item. Esse elements were available or furnished to this Authority in the following language which is:
		the language of a translation furnished for the purposes of international search (under Rule23.1(b)).
		the language of publication of the international application (under Rule 48.3(b)).
		the language of the translation furnished for the purposes of international preliminary examination (under Rules 55.2 and/or 55.3).
3	3. Wi	ith regard to any nucleotide and/or amino acid sequence disclosed in the international application, the ernational preliminary examination was carried out on the basis of the sequence listing:
		contained in the international application in printed form.
1	Ī	filed together with the international application in computer readable form.
1		furnished subsequently to this Authority in written form.
Ì	Ė	furnished subsequently to this Authority in computer readable form.
	Ĺ	The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
		The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.
	4. 🗵	The amendments have resulted in the cancellation of:
		the description, pages NONE
-		the claims, Nos. NONE
		the drawings, sheets/fig NONE
	5. [This report has been established as if (some of) the amendments had not been made, since they have been considered to go
	ship w	beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).** blacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to its eport as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).
	** An	ry replacement sheet containing such amendments must be referred to under item 1 and annexed to this report.

International application No. PCT/US03/39776

Inventive Step (IS) Claims NONE NO Claims 1-16 Claims NONE Industrial Applicability (IA) Claims 1-16 YE NO YE YE YE YE YE YE YE YE YE Y	 Keasoned statement under Rule 66.2(a)(citations and explanations supporting su 	ш) with regar		dustrial annlicahilitv
